### Principal's Notes

Here we are, almost at the business end of term 3. Our Year 12 cohort has six short weeks left, for those undergoing exams they will be upon us before we know it so make sure you make the most of the time you have left with your teachers for revision and consolidating the learning you have done throughout the year.

The past three weeks have seen us trialling the NAPLAN for ACARA, thank you to the students who assisted in sitting the test twice in one year, for parents information the trials are undertaken to see whether the questions are acceptable for the following year and to trial the system using computers.

Fourty students and five staff travelled through the night to spend three and a half days skiing and living on the summit of Mt Hotham. All reports I have received were that the students lived up to our reputation for being polite, courteous and friendly to the staff at the venue. They all had a great time hitting the slopes on ski's or snowboards and after a morning lesson each day, they all improved dramatically. I would like to take this opportunity to extend a special thank you to Mr Roger Kennett who organises the trip each year but this year was unable to attend due to a back injury. Thank you Roger and thank you to the staff.

Sixteen students have enrolled in the Industry Trade taster program and held their induction day last week in the HDSC. There is a large range of industry areas offered, partnering with WESTVIC to try something different to possibly ignite a passion for a career pathway. WESTVIC will assist with a range of operational programs which will include Career information, mock interviews, evaluations and assistance with work experience. The HDSC will offer the workspace, mentoring, passionate trainers from the business sector as well as all the equipment required to make this program a success. This week I believe that the students are going to experience bricklaying, so we will be getting a new wall somewhere on the campus.

Last week we said farewell to Mr John Sly, our Year 10 coordinator, who has moved to Geelong to be with family. We wish him all the best in his new school at Werribee and welcome Dr Morgan into the Coordinator role. Dr Morgan will be talking to each student individually over the next few weeks. We also farewelled our Uni Placement student teacher Madi Donehue who's enthusiasm and positive attitude was infectious, thank you for your contribution Madi.

Friday will be Lisa Kyle's last day at Baimbridge after many years of excellent teaching, many positions of responsibility and outstanding service to our students, staff and community. We wish Lisa the very best.

On Wednesday I had the pleasure of talking to a large number of families from the Year 8 and 9 cohort who attended the Year 9 / 10 information evening in the gym. I would like to stress how important these events are to attend, not only for families to make informed decisions about our student's futures, but to connect to our community. This is what I witnessed on the information evening and I applaud everyone for making the effort to come out. I also hope that you got a lot out of the evening without being bombarded with information. Thank you to all of the staff present to assist with parent enquiries and those responsible for the organisation of the event.

I would like to congratulate the six students, Hilary Slocombe, Mitch Downes, Jaz Hill, Ben Brodrick, Molly Hardy and Brock Sanders, selected to attend the Snowy River Campus of the School for Student Leadership (SSL) next term. You will have a life changing experience and I look forward to hearing how you managed without your phones or wifi for a whole 9 weeks. This is our 4th year of attending the SSL and we have just heard last week that in 2019 six lucky students will be selected to attend the China program where the students will spend 6 weeks in China in Term 4.

I would like to welcome Mr Andrew Ellis to the Baimbridge team in the science department, after a very swift appointment he has settled in well thanks to the support of the staff and students alike, with special mention to Mrs Kyle for her work with him. We look forward to learning a lot from Mr Ellis and benefitting from his input into our professional learning community.

We also welcome Miss Jessica Turnbull into the Humanities area for Term 4, I have it on very good authority that she is very well versed in her historical figures, as well as having both a law and commerce degree. She is only with us until the end of the year but our students will certainly gain much from her knowledge.

As always, I encourage anyone who has any form of feedback or questions or who just want to call in for a general chat to do so.

Warwick Price.

## A Real Community Effort

Hats off to our Student Representative Council who held a casual day to help fund the Drought Relief in NSW last week. The donations received totalled more than \$790 - what a fantastic effort from everyone!!!

Thank you to the members of the SRC who organised the event and cooked the bbq, Gilly for organising the bbq and a big thanks to our friend Grotti Lotti whose office lady kindly donated three prints for us to auction on the day.

**RESPECT**

**COURAGE**

**PRIDE**

**HAVE YOU CHANGED YOUR  
ADDRESS LATELY? WE HAVE!!!**

As always, it is imperative that we know your current address, email and contact number.

If you have not updated your details we cannot communicate with you.

Please call the school on 55722788 or send an email via compass.

We have changed our address with the move, if you wish to send us correspondence our new address is

At the start of this school year, Baimbridge College was fortunate to be selected by the Department of Education and Training (DET) to participate in a key school improvement initiative, part of a suite of initiatives to be implemented from 2017-2021. These form part of a significant DET commitment to more than 160 Victorian schools this year, providing additional human and financial resources to schools to intensify their improvement efforts.

With a strong focus on working in collaboration with schools to share innovation and apply best practice from across Victorian schools, the initiatives support our school to continue to improve student learning outcomes with a focus on building learning confidence and opportunities for success for all students.

Informed by learning from international improvement efforts, in particular Ontario and London, participating schools were selected by regions to be at the forefront of this new and exciting work. Schools chosen for the initiatives demonstrated that they had the foundations in place to gain the most from a new school improvement opportunity. Many schools have expressed interest in receiving this level of support in future years. The initiatives provide an exciting opportunity for our staff to work in partnership with others on evidenced based, supported, school improvement practices.

We look forward to sharing the development and impact of this work with you later in the school year.

## Sport in Schools

Baimbridge College were excited last week to receive a large shipment of sports gear and gratefully thank local people for their support of the recent Coles voucher program for sports gear. Pictured are School Principal Mr Warwick Price and students Eli Crutch, Cody Holmes, Abbey Phillips and Georgia Shepherd proudly displaying some of the new balls and sports gear the School PE/sport program and lunchtime activities programs will benefit from.

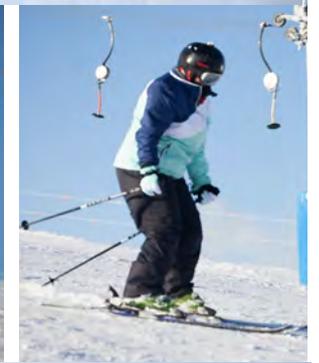

Head of PE Jayne Cogger and Head of Sport Jen McArthur were both also excited and wanted to pass on their thanks to the local community for thinking of Baimbridge whilst this voucher deal was in place.

The school is a recipient of many local business supporters and also participates in the Woolworths Earn and Learn program each year for books and stationery.

Mr John Hill Assistant Principal said he was always proud of the contributions to the community many of the students make in terms of local agencies such as Legacy, RSL and Standing Tall. He is thankful for the program as it provides an easy way to get some gear you otherwise wouldn't.

# SNOW TRIP 2018

# Noorat Shoot

On the 23<sup>rd</sup> of August the Baimbridge shooting team headed down to Noorat for a school shoot. I had thought, based on previous experience that the weather would be quite poor to instead be greeted with sunshine! It was a great surprise, which gave us all hope for the weather to stay pleasant. All of roughly 300 shooters had handed their guns in and Baimbridge was first up to shoot in squads of 5 but we had a little set back due to our bus being a little late. Overall all students shot well and had a great day.

I would like to say a huge thank you to Miss Adams and Mrs Mac for organising the day, to Miss Munro for driving the bus of mostly boys, a huge thank you to all of the parents involved, especially Michael Smyth for being the gun transporter for the day and to the Noorat gun club and sponsors for holding this event.

Gemma Hill

Well done to all Shooters on the day who were a credit to the school. You all showed great sportsmanship, pride in your school and respect. Thank you for being a tremendous team. A massive thank you to those parents and friends who came to Noorat and supported our students (and teacher who was very nervous about her first solo excursion!)

\ < A huge Congratulations must also go to Gemma Hill who had a fantastic day! Shooting a 9 in the first round, placing her in the top shooters for the day. She then confidently backed this up with a 9 in the second round to score an overall 18/20 for the day. With this score, Gemma placed second in Senior Girls meaning she will now compete in State Competition on the 3<sup>rd</sup> of September in Echuca. We wish Gemma all the best, and look forward to hearing how she goes.

Miss Rachel Munro

## Miss Munro's Maths Message!

Happy End of Week 7! It feels like we only just came back from holidays, but here we are heading into the pointy end of Term 3 already. There has been a lot on, and still a lot to go before we farewell the Term.

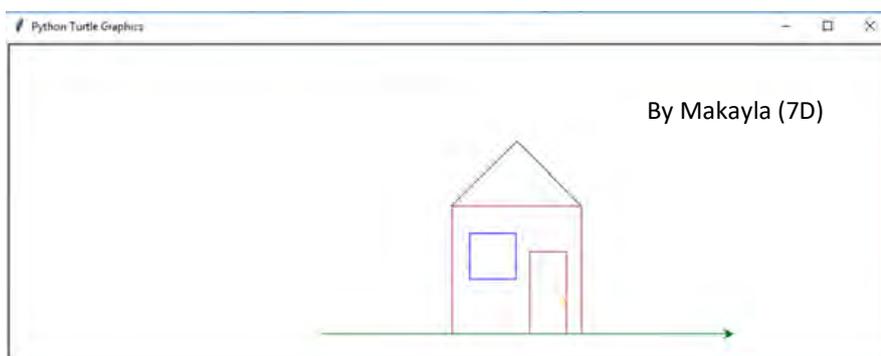

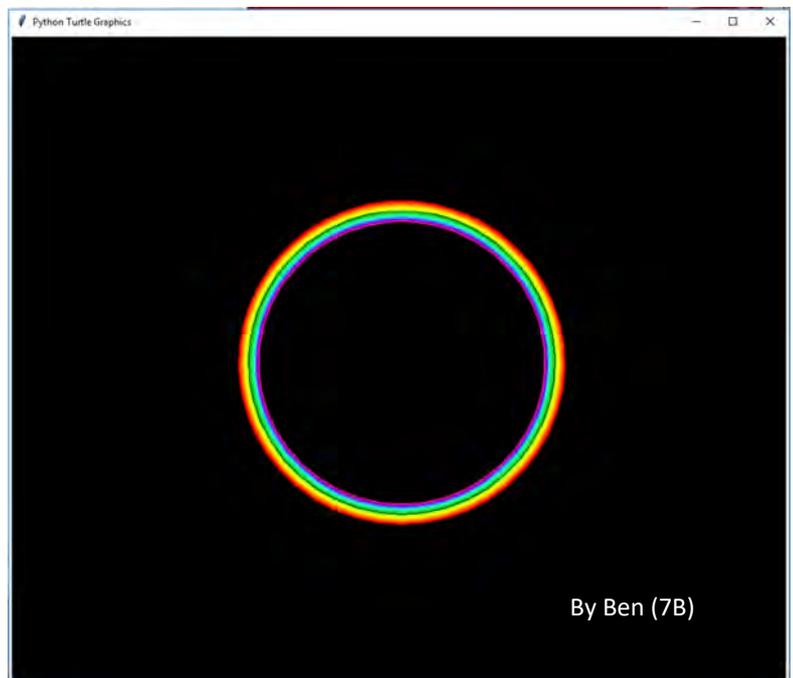

So what have we been up to??

### Year 7 and 8

Our coding Assignments are now either done, or soon to be done! The students have done a FANTASTIC job of creating some real works of art (or finding out just what Python might be capable of) Everyone has shown persistence and determination in: finding code, writing code, changing code, fixing code, and so much more! There have been excellent displays of team work, collaboration and creativity. Keep an eye on compass for feedback on these assignments. Moving into the next three weeks, we continue with coding, looking further into the diverse range of things that we can do with coding outside of geometry!

### Year 9 and 10

We have had our creativity in over-drive the last few weeks as we kicked off our assignments! Would you believe the places that you use rates and ratios!? Or how many different ways you use maths in everyday life!? Our current term project is all about the students finding out about where we see or use rates and ratios and showing us what they know and how they can apply their skills. It has meant a fun, hectic, and interesting time in classroom. We have projects ranging from revision quizzes on Kahoot being made, baking and scaling up and down recipes, enlargement of pictures, scale models of basketball courts, origami, sewing, buildings, all the way to gears, drench mixes and stocking rates. It really is good to be able to use our skills with something we enjoy or are passionate about.

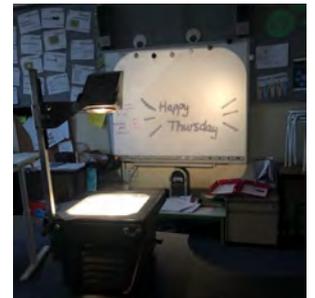

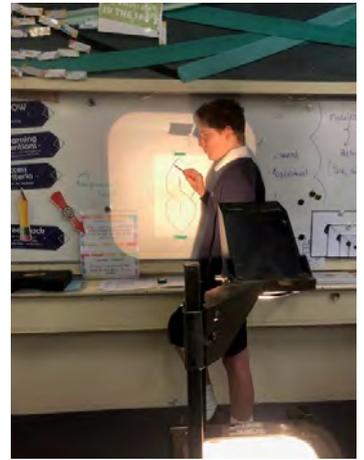

# M<sup>4</sup>

We've even had the 'old school' over-head projector out! (Thank you to Mr O'Brien for finding a new globe to keep up in business as well!!!!) It's been fun to show the students what used to be in the classroom – and let them experiment with how the machine works.

The year 9/10's will still have a Maths Pathway test next week as well – so they will be VERY BUSY! But we are sure they are up to the task.

I'll sign off with a joke this week – Enjoy  
After a talking sheepdog gets all the sheep in the pen, he reports back to the farmer: "All 40 accounted for."  
"But I only have 36 sheep," says the farmer.  
"I know," says the sheepdog. "But I rounded them up."

## Subject Selections

Thank you to all 10 and 11 students who have entered your subject selections online (with your parents of course) , it is vital that you do so by the deadlines issued so that the school can begin planning the entire workforce structuring for next year. We have a team of people working together to assist students in selections, then Miss Taylor starts the very demanding task of creating a timetable that suits the most people across the board.

To the year 8's and 9's who will be entering yours next week, please remember to enter your choices in your preference order from the very first subject, it's important. Remember we are here to help if you require it.

**A reminder:** Parents and students are asked not to bring take away food to school for students at lunchtimes. We have also had instances where parents or guardians are collecting students to take them to get lunch on Wednesdays without a pass. This is not acceptable as we have a duty of care to know where all of our students are at all times. It is never ok to take your or someone else's child from school without a pass from the school.
