It's term 4 and that means the hats are back. Hats are available to purchase from the East Office for \$15.

## Principal's Notes

### Hats!:

Welcome back to term IV and the need to put hats on while outside again. We have been reminding all our students that they must have a hat on while outside. The sun smart message is a very important one to get across to our school community to safe guard them against the danger of UV radiation. This successful program has been in place for many years now and it has been a real pleasure to see everyone, including staff, putting a hat on when they are outside at recess and lunchtime.

### Parent Teacher interviews :

This Thursday we are holding a parent / teacher interview evening for our Year 11 students and will follow up with another evening for students from Year 7 – 10 next Thursday 19 October. The appointment system on Compass is currently open. If a teacher's appointments are already full please contact the school to make alternative arrangements.

### Thank You:

The final part of the Vision and Values opinion collection was put in place at the end of last term. A link to a survey for all school parents and guardians was sent out through Compass and I would like to thank all those families who took the opportunity to provide us with their opinion. We have now sent the feedback we received from parents, students, staff and our Koorie families to our facilitator Mr Garry Schultz. He will collate the information and bring it to a School Council meeting this term so that we can finalise the vision and values part of the School Strategic Plan we developed since the school review of 2016.

### Reading program :

We have been running a focus on teaching reading in Years 7 – 9 English classes this year and the results of student on demand testing were shared with all teachers at our staff meeting at the end of term III. Based on the results of testing I would like to congratulate our students who have shown wonderful gains in their reading ability. Thanks to our WIRED .5 reading program we have surpassed the four year achievement growth goals that were set at the beginning of 2017. This is wonderful news because reading is such an important aspect of study and access to information in all areas of the curriculum. As I have said before no matter where a student's achievement level lies what we like to see is significant growth in their ability and this program appears to be delivering just that.

**Year 12 :**

Our Year 12 students are almost finished their studies for 2017 and we look forward to celebrating the conclusion of their year with them. On behalf of our whole school community I would like to wish them all the best with their exams and their future career and study aspirations. I urge all of our Year 12 students to make good use of the time between the end of classes and exams so that they can be satisfied that they have done their best. There is nothing more disheartening than to look back at a missed or wasted opportunity. We have arranged for a whole school assembly on the 26<sup>th</sup> October to congratulate them and wish them well with their future. More information will be made available via Compass closer to the date.

**Welcome :**

I am pleased to welcome Miss Rachel Munro to Baimbridge College this term. She will be working in the Mathematics faculty, replacing Mrs Narelle Kelly who is on leave for term IV. We had the good fortune to have Miss Munro working with us a year or so ago and I know that she brings a real passion and knowledge to our students and her classes. I would also like to welcome back Mr Paul Sutherland who was with us at the end of term III replacing Mr McIntyre. Mr Sutherland has settled in really well and shown he also is a capable and caring member of our Maths team.

**College Jackets :**

The school council approved a proposed school jacket early this year. Accurate clothing were very hopeful of it being ready for this winter. This has proved problematic as the two designs that were matching council recommendations are no longer available. Another supplier is currently being sourced via Accurate and Suzi Lemon at Accurate apologises for the delay. The jacket will now not be available until 2018. It will retail for around the \$120-\$130 dollar mark and will provide warmth and rain protection. It will not be a compulsory item but will no doubt be welcomed by the many students who have promoted and supported this through the SRC process.

**2018 Student Leaders :**

The process to determine the student leaders for 2018 has begun. Nominations from students, for the different positions, have been received and interview and voting processes will take place in the next few weeks so that we can identify our 2018 leaders. I would like to compliment all those students who have put their names forward to lead the student body next year. Good luck to all applicants and I look forward to announcing the successful applicants soon.

**Music Night:**

We had a very successful Music Night on the last Thursday of term III at the Hamilton PAC. It was a delight to see and hear all of our talented music students performing on the night. Congratulations to our outgoing Music Captain Nathan Astbury on the way he presented the evening along with junior captain Ella Warnock , who supported all night. I would also like to commend each and every student who performed as well as all of our Music staff who trained and supported their performances. I trust that everyone who attended enjoyed the night as much as I did. Well done to all – a great night.

If there are any questions or concerns I urge parents and guardians to contact myself, our Assistant Principals Mr John Hill and Miss Rosemary Morgan or the relevant Co-ordinators.

**Robert Vecchiet**

**Principal**

# Thank You

Luke North has recently helped the school with manufacturing some flag holder stands you may have noticed around the College in foyer areas.

He is to be commended on his excellent workmanship and this money saving work.

Well done and thanks Luke.

Congratulations to our outgoing Music Captain Nathan Astbury on the way he presented 'The Art of Suave' along with junior captain Ella Warnock, who supported all night.

The night was enjoyed by all that attended and the College would like to thank everyone for their support.

# Parent Teacher Interviews

With Parent teacher Interviews happening in the first weeks of Term 4 for students in years 7 to 11, here are some tips for a successful interview.

Bookings will be made via Compass, so if you do not have your password please contact the school or follow the links on the log in page.

## Parent-teacher interview

Schools encourage parents to be actively involved in their child's education and welcome discussions between teachers and parents so that everyone is working together to support your child's learning.

A parent-teacher interview enables you to:

- discuss how your child is progressing, both academically and socially
- get to know your child's teacher
- stay informed about plans for your child's future learning.

### Before the interview:

- Look over your child's report and determine what information you'd like to know more about.
- Ask your child if there are any areas where they feel they need extra help or have concerns and share this information with your child's teacher during the interview.
- Write a list of specific questions you wish to ask your child's teacher.
- 

Some topics you might discuss include your child's progress, how you can support any specific actions for improvement through the learning your child does at home and your child's developing interests, discipline and social skills.

### During the interview:

- If you want to know about a specific area of your child's progress, let your child's teacher know this at the start.
- Take notes so you can share what's discussed with your child.
- Discuss how your child is participating in classroom activities and whether or not there are any general issues with their behaviour or discipline.
- Ask your child's teacher to clarify any extra support or extension activities that may have been mentioned.

Ask for suggestions or more details about how you can help your child at home.

### After the interview:

- Keep in regular contact with your child's teacher and follow up on any mutually-agreed plan.
- Talk with your child about what you discussed with their teacher and tell them about the things you've agreed to for improving their learning.

You can also request interviews with your child's teacher at any other time, especially if you are concerned about your child's progress, or contact teaching staff directly via Compass.

# BRICKLAYING SKILLS PROVIDE MY FUTURE FREEDOM

## Bricklaying Apprenticeships

There is a new generation of young bricklayers emerging. This group are fit, bright, ambitious and are focused on a successful and rewarding career. They know the options and freedom that bricklaying provides. You too can be part of this new generation. To work towards a qualification in bricklaying and even becoming a builder, is a great place to start your career and give you a wide range of rewarding choices of work and life experiences. Bricklaying can give you the freedom to choose your future.

### 1 Working outdoors

With bricklaying, your "office" can be anywhere, by the beach, on top of a city building, or in an idyllic country setting and every job provides a change of location, its never boring.

### 2 The all important qualification

A qualification in bricklaying (Certificate III) reflects the training and the skills you have gained as a fully qualified and competent tradesman. You can learn at your own pace and the combination of on the job and off the job training is a great mix to build your knowledge, skills and experience in bricklaying.

### 3 I built that

Bricklayers can say "I built this city" because they did and can see the results of their work. Bricks and blocks, more than any other products such as wiring and gas and water pipes, are on show to be admired. Bricklayers take great pride in the finished result and can truly say "I built that".

### 4 The pay just gets better

Bricklayers do very well these days and the skill shortages are creating more demand and more rewards for the trade. An apprentice gets paid to learn (unlike a university student) and the more skilled you get the more the pay just gets better.

### 5 Be your own boss

Bricklaying provides a great opportunity to be your own boss. There are many ambitious young bricklayers who look for responsibility, leadership opportunities and the freedom to run their own business. Running your own sub-contractor business gives you the opportunity to take charge and can be very rewarding, not only financially, but with the satisfaction of building and running your own team.

### 6 Freedom to travel

Bricklaying provides great opportunities to travel the country and the world. Just pack your trowel and your skills and set off on a journey of discovery. Bricklayers are needed all over the world so there is always a job waiting for you and an exciting experience that comes with travel.

### 7 Be part of a team

Teams that achieve success are teams that work together for each other. This is the culture of bricklaying gangs. Its teamwork that gets the job done, teamwork creates efficiency, meets on the job challenges and shares the load with your mates. If you work well in a team environment, then bricklaying is for you.

### 8 My fitness program

Cancel your gym membership. Bricklayers are among the fittest young people going around. Many are good at sport, have excellent hand-eye co-ordination and love the outdoor physical work. Of course, in years to come, you will be running your own gang or become a builder with more time to supervise and lead other young hands-on tradesmen.

## 9 I'm aiming to be a builder

There are only two structural construction trades, Bricklaying and carpentry. Both are pathways, if you want, to becoming a Builder. Gaining a qualification in bricklaying provides a great understanding and knowledge of building. Many bricklayers continue on to get their builders licence and are very successful. And it started with a bricklaying qualification.

## 10 Skill shortage creates opportunity

There is a shortage of skilled bricklayers in Australia. Less than 50% of the trade have a qualification. The shortage will get worse as the aging bricklayers retire or leave the trade. 44% of bricklayers are over the age of 40. Therefore a young qualified bricklayer has the world at his feet with plenty of work, great rewards and a great lifestyle. The future shortage will give you greater freedom of choice.

# Clay brick and concrete masonry industry lays foundation for future qualified bricklayers

Australian Brick & Blocklaying Training Foundation Ltd (ABBTF) promotes the trade of bricklaying to young people to address the critical skill shortage of qualified bricklayers currently facing the Australian construction industry. In Australia, 44% of bricklayers are over the age of 40, 23% are over the age of 50.

ABBTF represents brick and block manufacturers and has programs operating in all states and the ACT.

To achieve apprenticeship growth ABBTF has forged strong relationships with training providers

and employers of apprentice bricklayers.

ABBTF run Step Out Taster Programs in bricklaying at schools and also play a role in recruiting, preparing through Work Ready Programs and placing young people into an apprenticeship. The apprentice support continues on through the apprenticeship with advice and encouragement.

ABBTF offer financial incentives to employers to take on an apprentice. These employers play a vital role in mentoring the next

generation of bricklayers to ensure that valuable skills and craftsmanship are passed on.

A trade qualification is important as bricklaying is a valued trade in the construction industry and can lead to becoming a Builder or many other career path opportunities in the future.

The ABBTF scheme is jointly funded by an industry contribution on the sale of bricks and blocks which is matched by the brick and block manufacturers.

The following recipe is compulsory for all entrants.

### RICH FRUIT CAKE

The Senior Rich Fruit Cake is to be cooked in a 20 cm square tin.

250g sultanas  
250g chopped raisins  
250g currants  
125g chopped mixed peel  
90g chopped red glace cherries  
90g chopped blanched almonds  
1/3 cup sherry or brandy  
250g plain flour  
60g self raising flour  
1/4 teaspoon grated nutmeg  
1/2 teaspoon ground ginger  
1/2 teaspoon ground cloves  
250g butter  
250g soft brown sugar  
1/2 teaspoon lemon essence OR finely grated lemon rind  
1/2 teaspoon almond essence  
1/2 teaspoon vanilla essence  
4 large eggs

Here's what you do:-

Mix together all the fruits and nuts and sprinkle with the sherry or brandy. Cover and leave for at least 1 hour, but preferably overnight.

Sift together the flours and spices. Cream together the butter and sugar with the essences. Add the eggs one at a time, beating well after each addition, then alternately add the fruit and flour mixtures. Mix thoroughly. The mixture should be stiff enough to support a wooden spoon.

Place the mixture into a prepared tin 20 cm and bake in a slow oven for approximately 3½ - 4 hours. Allow the cake to cool in the tin.

NOTE: To ensure uniformity and depending upon the size, it is suggested the raisins be snipped into 2 or 3 pieces, cherries into 4 or 6 pieces and almonds crosswise into 3 or 4 pieces.
